BNI CORE VALUES

1. Givers Gain®
The underlying philosophy of BNI. We exemplify that by giving business to others; you will get business in return.

2. Lifelong Learning
We believe in the continuous improvement of personal and professional skills. BNI provides opportunities to support lifelong learning.

3. Traditions + Innovation
Tradition tells us where we come from and lays our foundation, but we must always look for ways to innovate.

4. Positive Attitude
BNI provides an environment that enables you to surround yourself with people who want to help you succeed.

5. Building Relationships
Networking is about farming connections rather than hunting. People want to do business with people they know and trust.

6. Accountability
If you want to have a powerful personal network, you must have accountability. Otherwise, it becomes a social group.

7. Recognition
It's important to recognize those who are contributing to the success of others.
